

**Company Name** - American Electronics, Inc. (Amelex)

**Seaport-e Point of Contact (name, phone number, email address)** - Dawn Rich, President, 301-862-5500, drich@amelexinc.com

**Brief Description of Capabilities** - American Electronics, Inc. (Amelex) was founded in 1982 as a high level engineering corporation, supporting the Navy. In November 1987 Amelex opened its office in Patuxent River to provide engineering support services to the Identification Systems Division of the Naval Air Warfare Center. Over the past 25 years, Amelex has evolved into a leading edge small business in the areas of program management, information management, research and development, and hardware and software engineering. In January 2003, Amelex was sold to Dawn Rich and Kim Oliver. These partners have been the management team leading Amelex's Patuxent River engineering group for over 16 years. Amelex, now a woman-owned small business, has its corporate headquarters in California, Maryland with field offices in Rosslyn, Virginia and Brussels, Belgium. Amelex's operations have grown in both DoD and commercial areas. Our group's support services are mainly broken into three major areas: Engineering Services, Program Management, and Information Technology. Amelex has a staff of approximately 100 employees with backgrounds in the areas of Combat Identification, Air Traffic Control, Radar Systems, and Detection and Surveillance Systems, to name a few.
